ECLIPSES FOR 1806.

THERE will be but three Eclipses this year; two will be of the Sun, and one of the Moon, as follows.

I. The first will be a visible eclipse of the Moon, January 4th, and by calculation as follows, viz.

	H. M.	
Beginning - - - - -	5 45	} Apparent time evening.
Middle - - - - -	7 11	
End - - - - -	8 37	
Duration - - - - -	2 53	

Digits eclipsed, $9^{\circ} 27'$ on the D's north limb.

II. The second will be a very remarkable eclipse of the Sun, which will be total, and visible, if the air be clear, June 16th, and by calculation as follows :

	H. M.	
Beginning - - - - -	9 58	} Apparent time morning.
Moon's easterly edge touches the Sun's centre - - -	10 39	
Beginning of total obscurity	11 20	
Middle - - - - -	11 21 $\frac{1}{4}$	
End of total obscurity -	11 22 $\frac{1}{4}$	
Moon's westerly edge touches the Sun's centre - - -	0 6	} Afternoon.
End - - - - -	0 47 $\frac{1}{2}$	
Duration of total obscurity	2 $\frac{1}{4}$	
Whole duration - - - -	2 49 $\frac{1}{2}$	

 A total eclipse of the Sun has been thought by most people not conversant in astronomy, as an impossible phenomenon, as the Sun is allowed to be much larger than the Moon; but it is also known that the Moon is at certain times much nearer the earth than at others;—these phenomena never take place, unless at the time of a central eclipse of the Sun, and the Moon happens to be in her least distance, or perigee, from the earth, which is the case at this time. A total eclipse of the Sun, therefore, is a very rare thing, and probably there will not happen another of the kind, at the same place, for an age to come.

N. B. The air at the time will receive a nightly chill, and every thing will wear a gloomy appearance. It is supposed by some that stars will be seen.

III. The third will be also of the Sun, December 9th, oh. 40m. in the evening, invisible to us, but central in *New S. Wales*, lon. $178^{\circ} 33'$ W. of Boston, and lat. $32^{\circ} 27'$ S.

Virginia first began to be settled 1584. King James I. of England granted letters patent to Sir Thomas Gage and his associates, for the settlement of this country, April 10, 1606, and a second, on a more extensive scale, 1609. In 1621, two Councils were appointed, the one to be called the Council of State, and the other the General Assembly.

Previous to the year 1728 N. and S. Carolina had constituted one government; they were then, however, divided for the more commodious administration of affairs. In 1775 North Carolina united with the other colonies against British oppression, and on December 16, 1776, established their independent constitution.

(a) *The design of this Society is to relieve and assist those objects of compassion, whose circumstances may require relief in a manner different from that which is by law provided for the support and employment of the poor; comprehending therein, the widow and the fatherless, the destitute and helpless stranger, and all, who by sickness, infirmity, or misfortune, may be reduced to indigence.*

Summary of the Method of Treatment to be used with Persons apparently dead from Drowning, &c.

THE RESUSCITATIVE PROCESS,
Recommended by the Humane Society.

CONVEY the person to the nearest convenient house, with his head raised : strip and dry him as quick as possible : clean the mouth and nostrils from froth and mud. If a child, let him be placed between two persons naked, in a hot bed. If an adult, lay him on a hot blanket or bed, and, in cold weather, near a fire—in warm weather, the air should be freely admitted into the room. The body is next to be gently rubbed with warm woollen cloths sprinkled with spirits, if at hand, otherwise dry. A heated warming-pan may be now lightly moved over the back, properly covered with a blanket—and the body, if of a child, is to be gently shook every few minutes. Whilst these means are using, let a clyster of warm water, with as much common salt as it will dissolve, be thrown into the bowels. Bathe the breast with hot rum—and persist in the use of these means for several hours. If no signs of life should then appear, let the body be kept warm several hours longer, with hot bricks, or vessels of hot water, applied to the palms of the hands and soles of the feet ; and this for a longer or shorter time, as the circumstances of the case may dictate.

The too customary method of rolling on a barrel, suspending by the feet, and every other violent mode of agitation, particularly in removing the body from the water, should be most carefully avoided.

To restore breathing, introduce the pipe of a bellows (when no apparatus is at hand) into one of the nostrils, the other and mouth being closed ; *inflate the lungs*, until the breast is a little raised ; the mouth and nostrils must then be let free.

Repeat this process until life appear.

Electricity is recommended to be early employed by judicious practitioners.

General Observations.—Resuscitation.

On the *dawn* or first indication of returning life, the prudent practitioner will resign the office of *Art* to *Nature*. It is evident that Art has contributed her share by enabling Nature to struggle with the immediate cause of oppression.

It is in fact this judicious blending of *Nature* with *Art* that gives to the latter all its efficacy.

On signs of returning life,

A tea-spoonful of warm water may be given; and if swallowing be returned, warm wine or diluted brandy. The patients must be laid in a warm bed, and if disposed to sleep, they will generally awake perfectly restored.

The plans above recommended are to be used three or four hours.—It is an absurd and vulgar opinion, to suppose persons irrecoverable, because life does not soon make its appearance.

✂ Bleeding never to be employed, unless by the direction of a physician.

This Society consists of such as have actually navigated the seas near or beyond the Cape of Good-Hope, or round Cape Horn, as masters or commanders of vessels, and such as have been factors or supercargoes of vessels employed in the East-India trade. It was instituted for the purpose of collecting together such observations, discoveries, books, papers, charts, and valuable publications, in every language,

as might tend to facilitate the navigation of the Eastern and Southern Oceans. Every member returning from sea, is bound to present to the Society an abstract of the journal of his voyage, and to communicate, in writing, his observations of the bearings and distances of all capes and headlands; the latitude and longitude of islands, rocks and shoals; unusual occurrences; storms and accidents; with all other observations which he may judge useful to be recorded. The Museum of the Society already exhibits a handsome collection of curiosities.

(q) Formerly Plantation of Great-Pond Settlement.

(r) A small village about 4 miles N. E. of Providence. The River Patucket has a beautiful fall of water, directly over which a Bridge has been built on the line which divides the Commonwealth of Massachusetts from the State of Rhode-Island. A Post-Office is kept at said Bridge, distant about 40 miles S. by W. of Boston.

(s) Heretofore known by the name of West-Pond Plantation, and the gore adjoining.

(t) The name of this town was lately altered from Pepperelborough to Saco.

(u) Schoodick lies in Washington county, and is situated on the boundary line and the end of Maine route of the United States, being the Office of delivery of British letters for Nova-Scotia and New-Brunswick; and is directly opposite St. Andrews, where a packet arrives weekly from St. John's, and from thence there is a direct communication through both Provinces.

(w) The Post-Office is kept at the house of Mr. Clap, who does the business for Mr. Charles Turner.

At a late anniversary, Nicholas Brown, Esq. presented the Corporation with 5000 dollars; in consequence of which, they voted unanimously, That the College shall in future be named "BROWN UNIVERSITY, in the State of Rhode-Island and Providence Plantations," in honour of their very liberal benefactor. Since which 1500 dollars more have been bestowed on said university by Mr. Brown.

The University is situated in the town of Providence, and is a large and elegant building, on a hill at the east of the town, which renders it delightful by commanding an extensive, variegated prospect of the country adjacent; the edifice is of brick, 150 feet long, and 55 broad, four stories high and contains 60 rooms. Upwards of six hundred persons have been graduated there since its institution, although the studies were interrupted by the College being used by the French and American troops for an hospital and barracks, from 1776 to 1782. It is now very flourishing. They have a library of about 3000 volumes of valuable ancient and modern authors. The philosophical apparatus is in a very good state, fitted to give a full course of experiments.

Dartmouth College (N. H.)

CONVENTION

Of the CONGREGATIONAL MINISTERS in the
Commonwealth of Massachusetts.

THEIR Meeting is held in *Boston*, in the afternoon of the last Wednesday in *May*, (or day of *Election*) annually; and on the following day at noon, after transacting the usual business of Convention, a sermon is delivered in public before them, and a collection made for the charitable purpose of relieving the indigent widows of deceased Clergymen.

The Convention is a voluntary Association embracing all the Congregational Clergy of the Commonwealth, and vested with no particular authority over the Churches. They have opened a friendly correspondence

with the General Assembly of the Presbyterian Church, in the Middle and Southern States, and with the representative bodies of the Congregational Ministers in Connecticut, New-Hampshire, and Vermont, for the purposes of communicating and receiving from them whatever may tend to promote the common interest of Christianity.

A Standing Committee of Convention have been appointed for the purpose of certifying the good character and qualifications of Ministers and Candidates who may travel into other States; and an agreement has been entered into between the Convention and the other representative bodies of Ministers in other States, mutually to communicate the names of their Committees for this purpose. Every certificate must be signed by one gentleman at least of that Committee, from whose bounds the person recommended travel.

The Committee in MASSACHUSETTS consists of the following Gentlemen,—viz.

Rev.	Rev.
Step. West, D.D. <i>Stockbridge</i>	Ezra Weld, <i>Braintree</i>
Seth Swift, <i>Williamstown</i>	John Read, D.D. <i>Bridgewater</i>
J. Lathrop, D.D. <i>W. Springfield</i>	Perez Fobes, L.L.D. <i>Raynham</i>
Joseph Lyman, D.D. <i>Hatfield</i>	Saml. West, D.D. <i>N. Bedford</i>
Roger Newton, <i>Greenfield</i>	Zephaniah Willis, <i>Kingston</i>
John Cushing, <i>Ashburnham</i>	Jonathan French, <i>Andover</i>
Ezra Ripley, <i>Concord</i>	Thos. Barnard, D.D. <i>Salem</i>
Daniel Chaplin, <i>Groton</i>	Samuel Spring, <i>Newburyport</i>
Ephraim Ward, <i>Brookfield</i>	Saml. Deane, D.D. <i>Portland</i>
John Lathrop, D.D. <i>Boston</i>	M. Hemmenway, D.D. <i>Wells</i>
Jed. Morse, D.D. <i>Charl. Town</i>	

John Elliot, D.D. of Boston, Treasurer.

John T. Kirkland, D.D. Scribe of the Convention.

The convention, "earnestly recommend to all young gentlemen, who design to devote themselves to the work of the ministry, to spend that portion of time in the study of divinity, which improved and judicious advisers shall think necessary to qualify them for public teachers."

The Congregational Ministers throughout the Commonwealth, with some exceptions, are associated, and have regular and stated meetings for fellowship and mutual improvement. The Convention has passed a vote, requesting the Moderator or Scribe of the several Associations throughout the Commonwealth, to forward to the Scribe of the Convention, a correct list of the members of their respective Associations, with the name of the Scribe of each, and of

the Candidates licensed by them; and have directed that the Scribe of the Convention procure the insertion of the several lists in the Massachusetts Register.

The Convention, solicitous to collect and preserve accurate documents for a *History of their Churches*, have passed a vote, that each of the Congregational Ministers in Massachusetts, be requested to compile a history of his own Church, and of those in his vicinity which may happen to be vacant, and to make returns to the Scribe of the Convention. It is hoped, this important request will not pass unnoticed, but be productive of great good.

Branch Pilots in the State of Massachusetts.

Pilots for the Inward Division of Port and Harbour of Boston.
 Thomas Knox, Charles Cole, Robert Knox.

Pilots for the Outward Division of the Port and Harbour of Boston.

Josiah Ayres, Nathl. B. Lyde, Leml. Ayres, John Tilly.

By a late Law of this Commonwealth, the pilotage of the harbour of *Boston* is formed into two divisions, *Outward* and *Inward*. The outward division consists of four branches; and the inward division consists of three branches; and no person so commissioned as a pilot, or his deputy, shall undertake to bring in or carry out of said harbour any vessel drawing *nine feet* of water, (coasters and fishing vessels excepted) except in his own particular branch, under the penalty of *fifty dollars*.

The Governor and Council determine and fix the fees of pilotage of the several pilots for the harbour of *Boston*, from time to time, having respect to the different risk and hazard of the inward and outward divisions, and according as the circumstances of peace or war, and the seasons of the year, may severally require; and the same to be specified on their respective warrants. A schedule of their fees to be hung up in the Custom-House for the port of *Boston* and *Charlestown*, for public inspection and information.

General Information respecting Probate Business.

AN Executor should notify the heirs, or persons interested in a will, of the day he intends to offer it for probate, that they may have opportunity to contest the probate hereof, if they see cause: otherwise the Judge may be obliged to postpone proving the will, and to cite the heirs. An executor knowing of his appointment, must cause the will to be proved within thirty days after the death of the testator, or present the said will to the Probate Court, and in writing declare his refusal: otherwise he may be subjected to a heavy fine. When a person dies intestate, the widow, or next of kin to the deceased, (if of age) should, within thirty days, take out a letter of administration, or in writing decline the trust. Guardians must be appointed to minors, before the estate is distributed, and before the account of administration is allowed. When executors and

administrators are prepared to exhibit their accounts of administration to the Judge for allowance, they should invariably notify the persons interested therein, or their guardians to be present in Court at the examination thereof: and the heirs and guardians will previously examine the accounts to be exhibited, and will certify thereon their approbation of it. This method may save much trouble and expense. The same steps should be taken with creditors, when an estate is insolvent: that is, they must be notified as aforesaid, or they must certify as aforesaid. Administrators who do not to account with the Judge of Probate for the personal estate of the deceased, as the same shall be appraised, should give notice thereof, at the time they return the inventory and then obtain an order for the sale of the whole, or for part thereof as the Judge shall direct; and the heirs also, if they apprehend the personal estate is appraised too low, should represent the same to the Judge, and request to have it sold at public auction, or at private sale, as will best serve the interest of all persons concerned.

Bounty on Salted Provisions and Fish of the United States.

An allowance of *thirty cents* per barrel is granted on pickled fish of the United States, and *twenty-five cents* per barrel on all provisions salted within the United States, without any deduction, if the same shall amount to *ten dollars.* And in order to obtain such bounty, the exporter to make an entry therefor with the collector—but no entry will be received where such pickled fish or salted provisions have *not been inspected and marked,* agreeable to the laws of the respective States, where such laws are in force. Such bounty is payable in six months from the date of the bond to be given ; and in no case, unless the certificates of landing at a foreign port, as in other cases, are produced. The bond to be in double the amount of such bounty—conditioned that the same shall be landed and left at some foreign port.

Form of the Entry.

Entry of
Bounty, by

GENERAL INFORMATION.

The want of certificates of distilled spirits, wines or teas, subject such articles to seizure, and fifty dollars fine, if such certificates are not delivered to the purchaser; and if any cask, chest, vessel or case, containing such articles, shall be found in the possession of any person, without being marked, and not being accompanied with a certificate, the same is liable to seizure.

On the sale of any cask, &c. which has been marked, the marks to be defaced in presence of some officer of inspection or customs; and the certificate of the same to be delivered up under the penalty of *one hundred dollars*, and costs of suit.

Goods from foreign ports, not to be unladen but between sun-rise and sun-set, without special license, under a penalty of four hundred dollars on the master and every other person concerned, disability from holding any office under the government of the United States for seven years, and being advertised in the newspapers, with forfeiture of the goods; and if above four hundred dollars, value of vessel and apparel.

Goods removed before gauged and weighed; and, if wines, spirits or teas, before being marked, without permission, are forfeited.

Persons giving or offering a bribe, forfeit from *two hundred to two thousand dollars*. Inspectors and officers of revenue cutters may go on board, examine and search vessels, have access to the cabin, and seal packages; and after sun-set secure hatches, &c. Persons in charge of vessels, for breaking fastenings, but in presence of an officer, forfeit *two hundred dollars*.

Officers may seize within or without their districts. Persons resisting or impeding them, forfeit *four hundred dollars*.

The master or commander of any vessel, that shall obstruct or hinder (or be the cause thereof,) any officer of the revenue, in going on board his ship or vessel; for the purpose of carrying into effect any of the revenue laws of the United States, forfeits from *fifty to five hundred dollars*.

Every owner of a vessel, residing within the limits of the United States, to swear to the register within *ninety days* after its being granted, or it becomes void, and the vessel and cargo pays foreign tonnage and duty.

Returned Cargo.

(If any articles of an outward cargo are brought back, they are to be detailed, specified by whom shipped outward, and to whom consigned inward.)

*For the information of Merchants in the District of
Boston and Charlestown.*

ALL bonds given on the exportation of merchandize, entitled to a drawback, must be put in suit as they become due, unless by prior application to the Comptroller, longer time shall be given to procure the necessary evidence that the merchandize exported was landed in a foreign port, captured or lost.

That no document of landing merchandize in a foreign port, entitled to a drawback, can be received, however regular, after the bond becomes due, unless satisfactory reasons are assigned for the delay.

That the exporter of all salted provisions and pickled fish, entitled to bounty, cannot claim it, unless the evidence of the delivery of the fish and provisions, in a foreign port, is rendered before his bond, given at the time of exportation, becomes due, excepting in those cases where satisfactory reasons are assigned for the delay, or a farther time granted by the Comptroller for obtaining evidence of the landing of the provisions or fish, in a foreign port.

That no debenture can be issued on the exportation of merchandize, unless the exporter shall, within ten days after the clearance of the vessel, complete those papers which the law makes necessary to his being entitled to a drawback.

Should any merchant in this district be conscious that he has bonds in the Custom-House, now due, given on the exportation of merchandize, or of pickled fish, or of salted provisions, he will consider how interesting it is to him, to have them cancelled without further delay.

DIRECTIONS FOR MARINERS.

Mr. William Lord, of *Stonington-Point*,* has erected an iron spear, about 13 feet long, with a white vane on the top, upon the rock of Latimer, in *Fisher's-Island-Sound*. The deepest channel is to the northward of the rock. This gentleman has it in contemplation, if suitable encouragement should be given by gentlemen from the eastward and westward (who are owners of navigation, and are constantly passing the Sound) to erect a spear upon what is called *The Tail of Watch-Hill-Reef*—another upon *Katumacut-Rock*, upon the same Reef—one upon *Ellis'-Reef*, which lies off *Ram-Island*, and is almost in the Middle of the Sound. These rocks are seldom, any of them, out of water, and much in the way of coasters up and down the Sound, who are unacquainted.

* *Stonington is a post-town and port, in New-London County, State of Connecticut, 14 miles E. by S. of New-London city.*

THE Publishers of the

REGISTER regret that it is not in their power, this year, to give a Census of all the Towns in the District of Maine. They have made several applications to different persons but were not able to obtain it. Any gentleman having it in his power to furnish the Census of any or all those towns for next year, will confer a great favour by forwarding it.

It was also their wish to have inserted a *correct List of Roads*; but not being able to obtain such a list, they have wholly omitted them for this year.
